

Root Cellar's newest publication, HOT OFF THE PRESS.....

**"Divorces,
Sacramento County District Court
1850 - 1879".**

It is now available for sale for \$25.00 plus \$2.19 tax for a total of \$27.19.

The cases are indexed and each court record found was abstracted. There is wonderful genealogical information in these records, including maiden names, when they migrated to California, children's ages, names (sometimes birth dates, date of marriage, where married, reason for the complaint, sometimes property legal descriptions, names of witnesses - often close relatives, etc.)

It will be a valuable source for any genealogical society library as well. An addendum is also included to the Index of defendants and plaintiffs who may have filed but for whatever reason, the case was dismissed.
